TABLE OF CONTENTS

03	EDITORIAL
04	EVENT PARTNERS
06	GERMAN DATA CENTER MARKET OUTLOOK BY JLL
11	THE RESPONSE OF DATA CENTERS TO AI ACCELERATION BY CYRUSONE
14	EXPERT INSIGHTS: DEVELOPMENTS
16	AI-DRIVEN TRANSFORMATIONS IN DATA CENTERS BY NDC-GARBE
20	EXPERT INSIGHTS: INNOVATIONS
22	AI AND LIQUID COOLING INNOVATIONS IN DATA CENTERS BY RITTAL
26	EXPERT INSIGHTS: TRENDS
28	ENHANCING DATA CENTER EFFICIENCY WITH LIQUID COOLING BY STULZ
32	DATA CENTERS AS A DRIVER FOR SUSTAINABLE URBAN DEVELOPMENT BY TTSP HWP
34	ADDRESSING THE TALENT GAP IN THE DATA CENTER INDUSTRY BY NTT DATA
38	EMERGENCY POWER SOLUTIONS FOR DATA CENTERS BY NTC NOTSTROMTECHNIK-CLASEN
41	CONTRIBUTORS
44	ABOUT GDA
45	GDA YOUNG TALENT AWARD / OPEN DATA CENTER DAY
46	GDA EVENTS
47	IMPRINT

DATACENTERS ARE NOT JUST THE BACKBONE OF THE DIGITAL WORLD — THEY ARE THE CORNERSTONE OF SUSTAINABLE INNOVATION AND RESPONSIBLE TECHNOLOGY

As we launch this year's Datacenter Outlook Germany alongside the German Datacenter Conference, we reflect on the impressive growth and resilience of our industry, which is being shaped by rapid technological advancements and a growing demand for sustainable solutions. This year's conference focuses on key themes like Artificial Intelligence (AI), sustainability, and evolving regulatory frameworks, topics that will define the future of datacenters in Germany and beyond.

AI, in particular, is no longer just a buzzword; it is a driving force pushing us towards unparalleled efficiency. However, it also requires us to rethink how we handle energy consumption, infrastructure, and long-term planning.

Sustainability remains at the heart of our discussions. As datacenters grow to meet increasing demand, we must align growth with environmental stewardship. This means adopting greener practices, energy-efficient technologies, and collaborating with policymakers to foster an environment that prioritizes long-term ecological health.

COLLABORATION WILL BE KEY TO OVERCOMING CHALLENGES

From city planners to policymakers, industry leaders to innovators, the success of our sector relies on a unified vision that incorporates diverse perspectives. Our role, as the German Datacenter Association, is to facilitate this dialogue, bringing stakeholders together to ensure that datacenters can thrive while contributing positively to society and the environment.

The next few years are pivotal for the European datacenter landscape. As AI, data demands, and sustainability converge, the challenges are vast, but so are the opportunities. Our responsibility is to lead with innovative solutions while driving sustainable growth.

As we gather for the conference, let's embrace the opportunity to exchange knowledge, inspire progress, and build partnerships that will shape the future of our industry. I encourage you to engage, collaborate, and help map out the next chapter of datacenter evolution.

ENJOY READING DATACENTER OUTLOOK GERMANY AND WELCOME TO THE GERMAN DATACENTER CONFERENCE 2024!
